ABOUT US

ENTIRE Battery is one of the pioneer manufacturers and suppliers of wide range of Batteries in India. We offer Automotive Batteries, Inverter Batteries, Solar Batteries, E-Rickshaw Batteries, UPS/SMF Battery and Two Wheeler Batteries, which are acclaimed by the clients for their proper functioning, long power backup, and optimum performance. The complete range of Automotive and Inverter Batteries is manufactured using best quality raw material to ensure international quality standards at the industry leading prices.

We are backed by a well-equipped infrastructure facility, which has highly advanced and upgraded machines to manufacture quality products with a better production rate. We have employed a team of highly skilled professionals who possess rich industry experience and domain knowledge. Being a client centric organization, we have well established the distribution network, which delivers high quality batteries on time at client place. we are able to touch the heights of success within short span of time across the globe.

Values

In everything we do, we try to uphold the highest standards of quality. We always push ourselves to do better and pioneer new territory in our pursuit of the next big thing.

OUR AIM

Together we can-Together we will
Excellent organizations achieve and sustain outstanding levels of performance that meet or exceed the expectation of all stake holders. In our journey towards excellent and secure a sustainable future, the following shall be our organizations vision mission and core values.

There are the fundamentals to the purpose of our existence and shall be percolated to all levels and Perficed by all in our processes activities and behaviour.

Mission

As a company, we care about the customers and have a mission to offer maximum satisfaction to our customers, and one way we achieve so is by offering them premium battery products.

Vision

As a company, with our consistency, dedication, and a commitment to quality, we aim to be among the top brands of the country serving the nation with premium products.

Features

- 1) High Pressure die casting positive spine plate.
- 2) Long Wet Self life - No refreshing charging required for upto 2 Months date of manufacturing.
- 3) Ability to recover from deep discharging as per factory Instruction.
- 4) High Reliability and Long Life Separator.
- 5) More back-up used Special Paste recipe for Positive and Negative.
- 6) Battery easy to use- Battery delivered factor charge.
